## ABOUT THE BRAND

Aussie Pacific strives to be a leader in Team Wear with a sport inspired brand built on a passion for Australian sports and the Australian sporting lifestyle.

We are focused on improving the design, quality, feel, look, and fabrics of our apparel to ensure that the

brand you have chosen for your Team has the same Australian passion and attributes that you do.

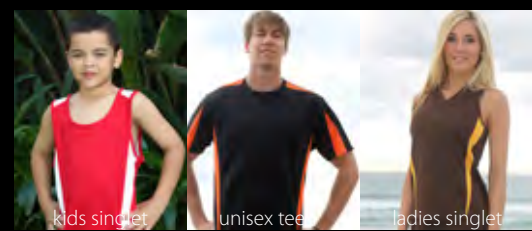

Aussie Pacific is socially and environmentally responsible, creative and caring where people love to work with us...and where people love to work...

We aim to do this by... committing to protecting the environment, health and safety of our employees, customers and communities where we operate. We recognise that we can offer innovative products and services while conserving and enhancing resources for future generations.

## Eureka - The legendary range

A government force consisting of detachments of British Regiments plus mounted & foot officers of the Victoria Police, attacked an entrenchment of aggrieved gold miners at Ballarat at daybreak on 3 December 1854. The resulting action, the attack on the Eureka Stockade, is today among Australia's greatest legends. Although swiftly and violently put down, the Eureka rebellion was a watershed event in Australian politics. The preceding three years of agitation for the miners had public support in Melbourne for the captured 'rebels'

when they were placed on trial. The role of the Eureka Stockade in generating public support for these demands beyond the goldfields resulted in Eureka being controversially identified with the birth of democracy in Australia. It takes a long time to become legendary. As with everything, it starts with an idea. Ours was to bring you a complete story that brings a massive colour choice, massive size choice and a massive garment choice any time you want to make a united stand, **C'mon Australia.....**

# AUSSIEPACIFIC

**INTRODUCING**

**THE EU**

## THE EUREKA STORY

We set out to create our own Aussie Legend with a complimentary story. The range you will see on the following pages represents your very own story with a classic styled garment.

This story consists of 17 colours in a Polo Shirt for Men, Ladies and Kids, a Unisex Tee for Adults and Children, a Singlet for Men, Ladies and Kids and a Track Suit in 15 colourways.

This styling lends itself to Sports, Club or Business Teams and there is a colour and size to suit everybody.

**Eureka....the legendary range.**

# HOW TO MEASURE

## SIZING

Regardless of the brand, all garments are hand made or sewn by hand using machinery that physically requires a 'human touch'.

There are machines used to fuse collars, place pockets in exactly the same place each time or do button holing but the

actual construction or putting together of the shirts is done by hand.

These shirts have a 'tolerance of +/- 1cm', it's because of the human content in the manufacturing and whilst Aussie Pacific make to exacting standards, sometimes a shirt may have a slight size change.

'Vanity Sizing' is aimed at the ladies segment of the market and you will note that some of your shirts may not represent your actual size, measuring like this will get you a shirt that fits and is comfortable every day!

### HALF CHEST MEASUREMENT

#### STEP 1

#### CHOOSE YOUR FAVOURITE FITTING SHIRT

Make sure it's a polo shirt if you are choosing a polo or a business shirt if you are choosing a business shirt or a tee if choosing a tee.

Important Note :- Don't measure a business shirt when you are sizing for a polo shirt? Why? Polos and Tees are made of knitted fabric, business shirts are made of woven fabric and have less stretch

#### STEP 2

#### LAY THE SHIRT FLAT ON A TABLE

This is the easy part, now smooth the shirt flat

#### STEP 3

MEASURE APPROX 2.5cm down from where the sleeve is sewn on to the body

#### STEP 4

#### HALF CHEST MEASUREMENT

Measure from the 'invisible 2.5cm down mark' across the shirt, go from seam to seam.

(Example after measuring, your shirt has a 57cm chest measure... Go to, say, the Murray Polo 57cm = Size L)

#### STEP 5

#### USE OUR CHARTS ON THESE PAGES

for the shirt you want use the reference to get your right size.

## MENS POLO

## 6 EASY STEPS to getting a Customised Garment made Off-Shore

Indenting is a system whereby garments are forward ordered and can be particularly beneficial where you require a Custom Made garment that represents something unique for your Brand, Team Club or Business.

You will need to get in touch with the person who gave you this Catalogue, they will be experienced in manufacturing in this off-shore area.

Aussie Pacific realise that you may want something that is different to an 'off the shelf' garment, you may want to reverse the colour combinations, add a colour to a panel or piping or have the item arrive already embroidered/printed and packaged.

Why choose Aussie Pacific over others?

Aussie Pacific garments are made in a state of the art factory in Shanghai-China, that also makes for many of the global labels that you may already have in your wardrobe.

We'd love to name the brands but can't for obvious reasons other than to say you are sure to have at least one leisure or sports garment in your wardrobe already?

These global labels have stringent Quality Control procedures in place which is transferred to the Aussie Pacific brand and of course to your Custom Made garment.

If your brand is as important to you as it is to us, why devalue your brand by using garments that are not made to exacting standards?

Quality garments will enhance your brand, just like a sub-standard garment will devalue your brand...can you afford to take the risk?

If not, then Aussie Pacific is a certainty for your garment.

Aussie Pacific recognise that you may not need thousands of shirts, that's why we offer a minimum of only 200 pieces made up of mens, ladies and kids sizes as long as they are all the same colour combinations across the sizes.

Your only restriction, apart from your imagination, is that you have to choose from any of the **DRIVEAR™** mini-waffle colours shown in this Catalogue.

If you want a custom colour or fabric, you will need a minimum of 1,000 pieces.

MIN. QTY.  
• 200 •  
PIECES

### STEP 1

**CHAT WITH THE PEOPLE** who gave you this catalogue...

### STEP 2

**IDENTIFY** which garment you will take and make uniquely yours for 200 pieces...

### STEP 3

**OR PROVIDE A SAMPLE** or a picture of your desired shirt if you want 1,000 pieces fully customised...

### STEP 4

**WORK OUT WHAT DECORATION** you want and where you want it on the shirt...

### STEP 5

**WORK WITH** your Aussie Pacific distributor to ensure you get what you want, be specific...

### STEP 6

**WAIT** for your totally customised shirt to arrive, typically 8-10 weeks by Sea, quicker by air...

Performance Fabrics decrease exertion by increasing hydration and by maintaining body temperature.

The yarn used for our performance fabrics garments is **DRINEAR™**.

This is not a fabric but an anti-bacterial treated yarn to make sure you stay fresh and dry.

It can be knitted into various forms such as mini-waffle and pique knit, mini-waffle is used extensively in this product range.

The unique fibre construction makes it lightweight and highly breathable.

The micro-construction causes yarn to bulk up when exposed to moisture and dry quickly when exposed to air.

Using a capillary action, moisture is wicked away from the skin to the outer surface spreading moisture from fibre to fibre.

**DRINEAR™** was created using a unique 5 channel polyester fibre that once woven together in cross sections allows air to flow through the fabric.

This yarn has the ability to move moisture and speed up evaporation which is crucial to keeping your body dry and comfortable.

It is important as the body works up a sweat, the moisture is transported away from the skin to the surface of the garment where it can evaporate quickly with the movement of

air around and across your body.

Due to the composition of the fabric, our **DRINEAR™** garments retain their colour and their shape.

Despite the advancements in fibre and fabric design, these garments are easily washable. These performance fabric garments can stand up to regular washing for years without losing their anti-bacterial attributes, shape, colour or durability.

It's the moisture evaporation that is needed to stay dry and comfortable during all types of activities in all weather conditions.

In China, Labour Contract Laws (LCL) have taken effect and are designed to;

- protect employees;
- to build long term harmonious working relationships;
- maintain lawful rights of both employees and employers.

This includes hiring, working hours, leave & rest, occupational safety and hygiene, training, discipline, compensation and everything concerning employee rights and interests.

The LCL's also prohibit employers from hiring persons under the legal age to hold

employment and Aussie Pacific condemns the use of underage workers and has never produced garments made by children under the legal working age.

As well and for the record, the Aussie Pacific factory does not employ 'stand over tactics' and staff can come and go as they see fit.

Regularly visits to the factory are undertaken to ensure procedures and human rights are not violated.

In this factory, the workers are paid on 'piece work' which means they are paid on their productivity on the amount of 'pieces' they can process.

# SOCIAL RESPONSIBILITY

# '11

Aussie Pacific takes and considers the issue of Social Responsibility very seriously as you would expect from a brand that is Australian owned and operated. The Aussie Pacific factory is a high quality Chinese apparel manufacturer who also produces for well known globally recognised brands in both the sports and fashion markets.

Many of the staff actually choose longer hours to get ahead.

These people usually travel long distances from their home provinces for employment so for factories to retain their staff can be a problem so it's in the best interests of the factory owner to ensure they have contented happy staff.

The factory provides three cooked meals a day in the company cafeteria and house the workers in air conditioned dormitories.

Recreation and leisure activities are vigorously encouraged.

Statistics show that one in three staff do not return to their workplace after the Chinese New Year Holiday so ensuring there is a happy workplace, is paramount.

All Aussie Pacific garments are made in their factory in China which is ISO Certified.

But what is ISO certified?

It's the International Standards Organisation.

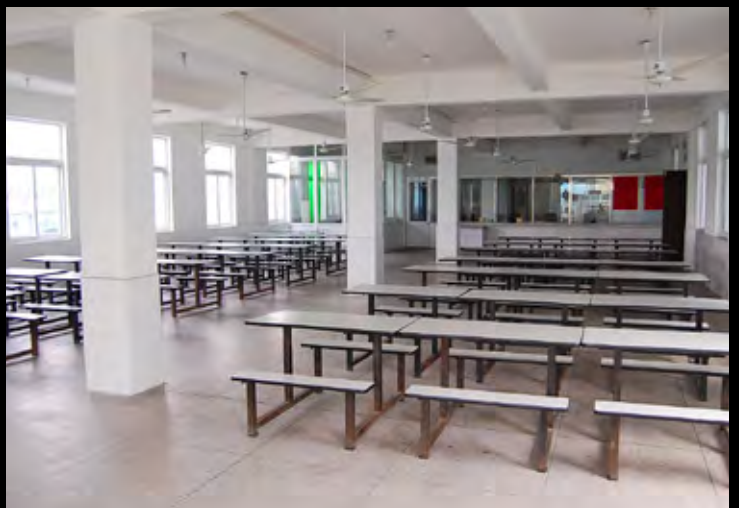

Essentially, the ISO 9000 family of standards represents an international consensus on good quality management practices.

ISO 9001:2000 is the standard that provides a set of standardised requirements for a

quality management system, regardless of what the organisation does, it's size or whether it's in the public or private sector.

It is the only standard in the ISO family against which organisations can be certified.

The other standards in the family cover specific aspects such as fundamentals and vocabulary, performance, improvements, documentation, training and financial and economical aspects.
