Full grain leather belt. Brass buckle and keeper set embossed with Rossi Boots 1910 logo. Edge stitched. Made in Australia Size Range: 34, 36, 38, 40, 42, 44, 46.

Full grain leathers as used in Rossi Boots belts are all natural fibres and remain one of the most versatile and enduring materials available.

Australian Made "It's important to us".

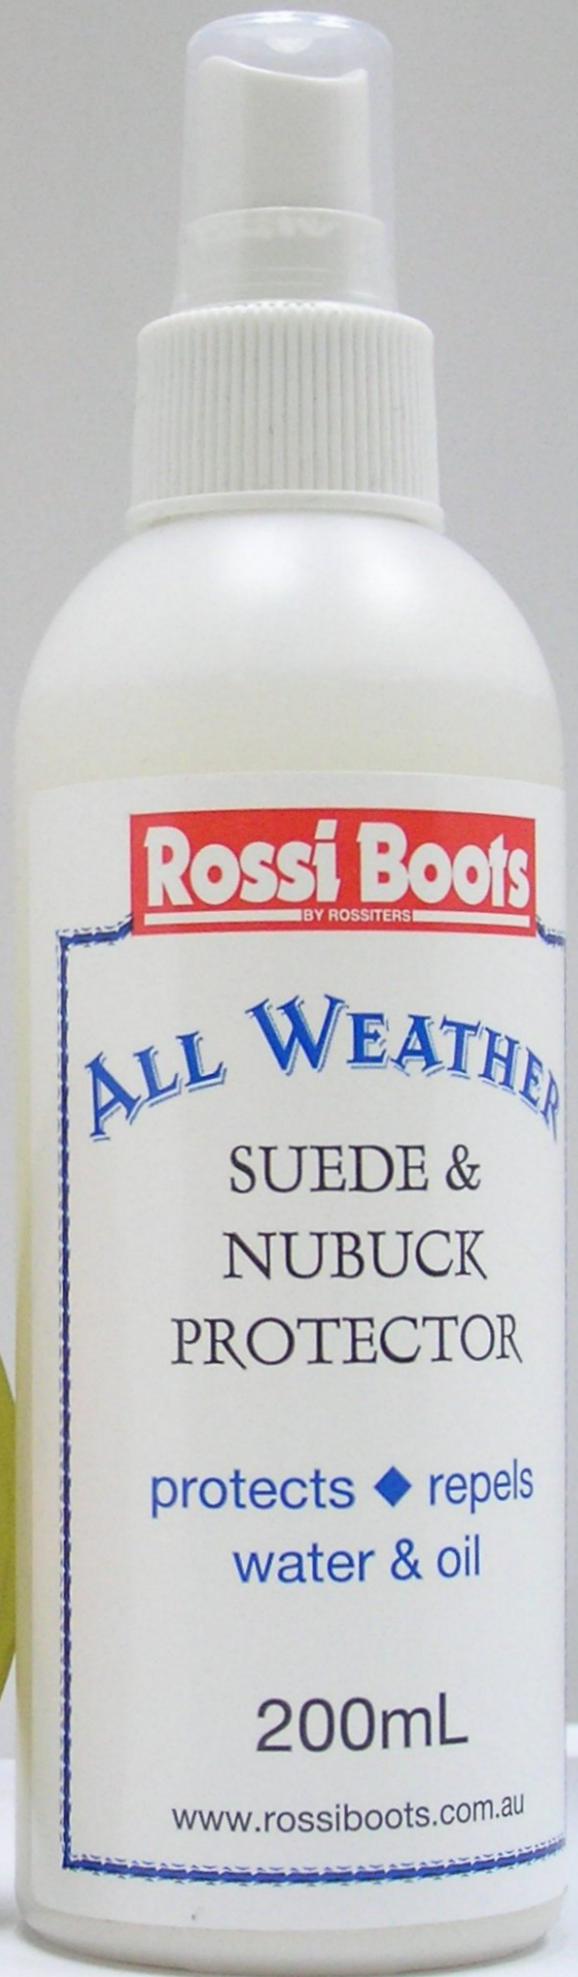

When Arthur Rossiter founded Rossi Boots in 1910 working from a small tin shed in his backyard, he was in fact starting an organisation that would continue to produce quality boots in Australia for many decades.

It's this heritage and quality of workmanship passed down through generations of our family that has been instrumental to the longevity and success of Rossi Boots. Today, members of the Rossiter family are still actively involved and so too are the descendants of the original Rossiter employees.

Rossi Boots is very much a family firm and we have embarked on a series of strategies designed to guarantee our future as an Australian manufacturer.

"When you get this sort of tradition it's something to be proud of,"
Dean Rossiter CEO

Protects and Enhances the full grain natural Leathers, as used in Rossi Boots, prolonging the life of the boot while providing added water repellent properties.

Surtek has become the choice for many manufacturers of adventure and speed sport apparel from Motorcycle Racing to Snow Skiing and Skate Boarding to Mountain Bike racers. The success in protecting those who exceed the limits has not gone unnoticed by Rossi Boots and as a consequence we have introduced advanced Surtek impact protection to our Safety range.

Safety cap with protective comfort sleeve: All Rossi Safety Steel Toe Boots benefit from an added comfort sleeve incorporated in the boots construction, serving to shield the foot from the edge of the steel cap.

Full grain leathers, oiled leathers, nubucks and suedes as used in Rossi Boots are all natural fibres and remain one of the most versatile and enduring materials used in footwear. Impact Protection

Surtek graphite and ceramic has become the choice for many manufacturers of adventure and speed sport apparel from Motorcycle Racing to Snow Skiing and Skate Boarding to Mountain Bike racers. The success in protecting those who exceed the limits has not gone unnoticed by Rossi Boots and therefore we have introduced advanced Surtek impact protection to our Safety range.

With combining, all the functions of Rossi's Safety footwear with the graphite and ceramic of Surtek dual composite technology Rossi Boots are able to now offer exceptional lightweight abrasion resistance while keeping true to the lines of the boot.

Design research has also recognised the need to extend the Surtek toecap into the flex area along the outside of the foot allowing for additional protection never experienced before.

Rossi Boots and Surtek improved impact protection Made right here in Australia.

Protecting those who exceed the limits.

- Extreme abrasion resistance.
- Dual composite graphite and ceramic.
- Exceptional weight saving over conventional bump toes.
- Extended side protection.

All Rossi Safety boots are manufactured in Australia to quality standards, using the finest leathers and materials available, maintaining Rossi's tradition for comfort, protection and innovation.

All Rossi Safety Boots are manufactured under the quality guidance of NATA quality endorsed systems, Australian International Standards AS/NZS ISO 9001: 2000. Achieving a safety rating to Australian Standards AS/NZS 2210.3

Rossi Boots

WORK HARD PLAY HARD

Style code
940 Zeal - White
941 Focus - Black

vtex

Made with On-micro - waterproof and breathable.

New slip resistant soft compound TPU sole:

On-micro upper. Vtex moisture wicking lining. Contoured polyurethane comfort footbed.
Enigma TPU/PU slip resistant compound sole. Size Range: 4 - 1/2 - 12, 13.

Thermo Urethane [TPU]

New slip resistant soft compound TPU sole:
Exclusive Rossi tread design.
Excellent flexibility.
Non - marking.
Ladder grips.
Oil and acid resistant.

Polyurethane [PU] comfort midsole

Optimal impact response characteristics.
Progressive cushion and rebound.
High comfort levels.

On-micro is the exterior technical fabric developed that goes beyond water repellent leather, retaining its capacity to be both waterproof and breathable.

Among its properties, On-micro microscopically reproduces the technical characteristics of natural leather and, in addition to which it is antibacterial, washable (up to 60 C), light, ecological and extremely abrasion resistant, even against chemical agents.

Care for On-micro is particularly easy by simply wiping it over with a damp cloth.

vtex

Vtex lining affords the wearer comfort to work in many areas and conditions. Constructed using a breathable weave supported by a moisture wicking membrane for greater fit & comfort.
